

SAMPLE TESSELLATIONS: The pictures below show how the characters in TessieMoreBirds form tessellation patterns. The first column shows images formed with TessieMoreBirds-Regular and TessieMoreBirds-Outline and the second column shows the alphanumeric characters used. Some of the shapes are not accessible with the standard keyboard. The easiest way to get these characters may be to copy them from this pdf and paste them into whatever document you are working on. Some of the patterns use weird letter spacing. To get the colors you want, it may be easiest to assign colors when the characters are displayed as alphanumeric characters.

Leading must be the same as point size for the rows to line up properly.
